ABOUT AZURETTI SERVICES AND DISTRIBUTIONS

Azuretti Service is a registered French/Nigerian company dedicated to strengthening trade between Nigeria and France. The company works closely with Nigerian farmers as aggregator for uptake and to ensure that all commodities meet strict European standards before being shipped to France. Key partner of Nigerian Export Promotion Council (NEPC).

Azuretti Services and Distributions (ASD) is an international trade and export development company established in 2019 under the laws of the French Republic. The company was founded to facilitate international trade by connecting African producers and exporters with buyers across Europe and other global markets, with France serving as a strategic gateway to the European Union.

Since its inception, Azuretti has invested in experienced professionals and strategic partnerships to develop innovative solutions that simplify international trade, strengthen export value chains, and improve the quality, traceability, and competitiveness of African export commodities. The company provides market access support, export advisory services, trade facilitation, and supply chain solutions to help African businesses meet international standards and successfully access global markets.

In **2025**, Azuretti expanded its operations to Nigeria by establishing a locally registered entity under the laws of the **Federal Republic of Nigeria**. This expansion strengthened the company's presence in West Africa and enhanced its ability to support Nigerian exporters through closer collaboration with government institutions, trade promotion agencies, and sub-national governments.

Today, Azuretti works closely with public and private sector stakeholders to promote export capacity development, improve compliance with European Union market requirements, and strengthen commodity traceability from origin to destination. Through these collaborations, the company contributes to Nigeria's non-oil export development agenda while creating sustainable market opportunities for African producers and exporters.

Azuretti has earned the confidence of exporters across Africa by providing reliable export support and facilitating access to European markets. At the same time, the company has established a strong reputation among French importers as a trusted sourcing and distribution partner for high-quality African agricultural commodities.

Driven by innovation, integrity, and strategic partnerships, Azuretti Services and Distributions remains committed to promoting sustainable trade, creating value for exporters, and strengthening commercial ties between Africa, France, and the wider European market.

Mr. Bastou Bdararu

President Azuretti Services and Distributions (ASD)

Message from the President

At Azuretti Services and Distributions, our vision is to connect Africa to global markets by building trusted, transparent, and sustainable trade partnerships. We are committed to supporting exporters, creating opportunities, and delivering value through innovation, quality, and integrity. We sincerely thank our partners and clients for their trust and collaboration. Together, we are strengthening international trade and unlocking new opportunities for businesses across Africa and Europe.

Our Vision

To become the leading compliant gateway for African agricultural commodities into Europe, creating sustainable value for farmers, exporters, investors and buyers.

Our Mission

- Support Nigerian exporters to meet and maintain EU standards.
- Provide European buyers with reliable, traceable and competitively priced commodities.
- Build long-term partnerships with regulators, financial institutions and logistics providers.

OUR STRATEGIC PARTNERS AND OUR NETWORK AND COLLABORATIONS.

Azuretti Services and Distributions collaborates with a broad network of strategic partners across the public and private sectors to strengthen international trade, promote export development, and facilitate market access. Our partnerships span government institutions, regulatory agencies, trade organizations, logistics providers, and commercial partners in Africa and Europe, including:

Quality Assurance and Regulatory Compliance

Quality, safety, and regulatory compliance are at the core of our operations. Azuretti implements rigorous quality control procedures throughout the sourcing, processing, documentation, and export process to ensure our products meet the requirements of the European Union and other international markets.

Our dedicated Quality Assurance team works closely with accredited laboratories and regulatory partners to ensure full compliance with applicable EU food import regulations, including:

- Regulation (EC) No. 178/2002 – General Food Law
- Regulation (EU) 2017/625 – Official Controls
- Regulation (EU) 2019/1793 – Increased Border Controls
- Regulation (EU) 2023/915 – Maximum Levels for Contaminants
- Regulation (EC) No. 396/2005 – Maximum Residue Levels (MRLs) for Pesticides
- Regulation (EU) No. 1169/2011 – Food Information to Consumers (Labelling)
- Regulation (EC) No. 1333/2008 – Food Additives
- Regulation (EC) No. 1924/2006 – Nutrition and Health Claims
- Regulation (EC) No. 1935/2004 – Food Contact Materials
- Regulation (EU) 2015/2283 – Novel Foods

To ensure product integrity and international acceptance, laboratory analyses, inspections, and quality verification are conducted by internationally recognized inspection and testing organizations, including Bureau Veritas (BV) and SGS, using ISO/IEC 17025 accredited testing laboratories where applicable.
